

HoverCam[®]

The HoverCam Kudos

The HoverCam Kudos High Resolution Document Camera

The HoverCam Kudos 3 includes two cameras. The top camera is a high resolution 3 Megapixel camera with an advanced telefocal lens and sensor to display and capture images of documents, 3D objects and technical drawings. Kudos 3 includes HoverCam’s advanced software for presentations, scanning and document management. The second camera is a 1 Megapixel camera mounted to the unit used as a webcam and for making Picture-in-Picture recordings showing a dual image of the presenter and the material. The Kudos 3 is highly compact and versatile, allowing it to be placed and used on a desk at all times, functioning as a convenient and always-available digital imaging and presentation tool.

Highlights of Key Features

- Two cameras, allowing Picture-in-Picture recording and use as a webcam.
- Patent pending smooth 8X digital zoom, and 1080P full motion HD video presentation and recording.
- USB computer connection for enhanced functionality, no power cable required.
- Drag-and-Drop scanned images with HoverCam Flex to an interactive white board, PowerPoint, email and other compatible programs.
- Sleek design complementary to any office decor.
