

Tiko Pouch Laminator

Model AL4202

Added Performance, Affordable Price, Contemporary Design

Easy to Use 9" Personal Pouch Laminator

The personal laminator from Tiko protects documents, certificates, photos and other paper based documents from damage by adding a protective layer of plastic lamination. The compact size takes up little desk space. Fast warm up time and quiet operation make the personal laminator fun to use. Easy one button operation with no complicated controls to set. Laminates pouches up to 5 mil thick and requires no carrier. A special release lever lets you remove jams easily.
