

TIMESAVER

IDENTIFICATION SUITE

TAILORED SOLUTIONS FOR
YOUR SECURITY & IDENTIFICATION NEEDS

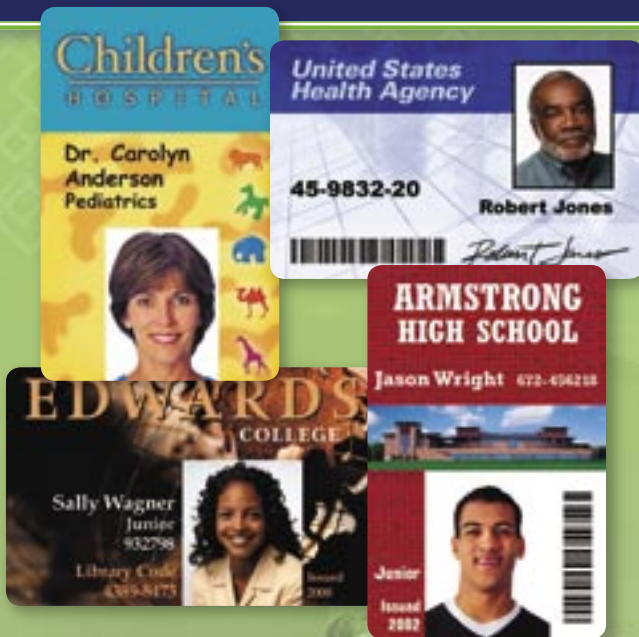

TIMESAVER

IDENTIFICATION SUITE

THE TIMESAVER SUITE

Now you can have a complete menu of badges or labels to match your system to your facility needs. This Windows® based software is simple yet robust providing the end user the option of using a single system, or combining systems to meet different facility badging and reporting needs.

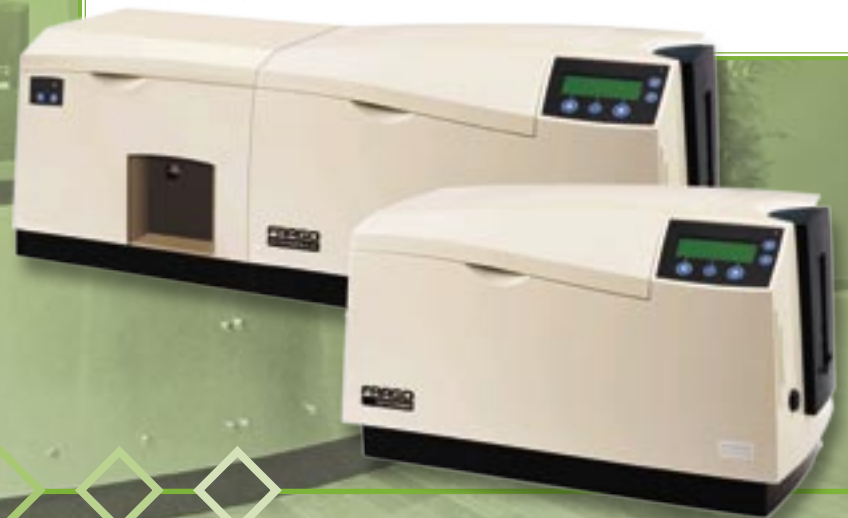

- ◇ Design & Produce Full color plastic ID cards.
- ◇ Take control of the school tardy & leave pass process
- ◇ Manage daycare and childcare entry and exit security
- ◇ Print Visitor labels in seconds and produce reports

TIMESAVER ID

Professional ID Cards for Businesses, Schools, and Government

- ◇ Windows 2000, XP with a Microsoft Access database (SQL option)
- ◇ Operators can learn the system in minutes
- ◇ Feature rich application with simple drop downs and "drag and drop" design module
- ◇ Create full color identification cards in seconds
- ◇ Produce simple ID cards or highly secure cards with fingerprint and 2D barcodes

TIMESAVER TARDY SYSTEM

Reduce Student Lines and Track Excessive Tardies

Convert your manual tardy or leave pass process to this fast, efficient system. Students present their student ID and the barcode is scanned. At the student's record, the operator classifies the tardy event (excused, unexcused, other.) The tardy or hall pass is generated in seconds and the information is stored for reporting. This system is the perfect complement to the TimeSaver ID system for school identification and student management.

“ TAKE CONTROL OF THE SCHOOL TARDY & LEAVE PASS PROCESS ”

TIMESAVER CHILD-COUNT

Reduce Your Childcare Facility Exposure

The Child-Count system manages a host of information for childcare facilities. The system can be set up to contain information on the child such as: photo, address, emergency contact information, allergies, medications, authorized adults for pick-up, authorized adults photos, and date and time (drop-off & Pick-up) records. Once the individual information has been entered, the system will provide a quick, yet effective way to track and log children entering and leaving the facility. This system is ideal for daycare facilities and churches.

“ A QUICK AND EFFECTIVE WAY TO TRACK AND LOG CHILDREN ENTERING AND LEAVING A FACILITY ”

TIMESAVER VISITOR

A Simple Yet Powerful System

Manual log-in books are limited and unreliable. This Windows® based software is simple to install and operate. Produce professional looking visitor badges in seconds. Groups can pre-register with badges printed upon arrival. The system is the perfect add-on to supplement your access control system. Timesaver Visitor comes with pre-designed badges and you can easily design your own custom badges. Add a barcode to the badge and with a scanner you have a powerful tracking system. Add a digital camera and you have a picture badge with the photo of the visitor in the database. Produce custom reports or choose from standard reports.
